

**TUTTOVO is the only Italian company
producing sauces with two EC identification marks!**

Total guarantee for its consumers

The EC identification marks are the oval-shaped markings found on food products of animal origin in the European Community, required by European Union food safety regulations.

They are vertical guidelines directly applied at the communitarian level, so they don't need to be converted into law by the Italian State.

In a few words, the EC identification marks set the principles and the requirements of food legislation relating to products of animal origin and establish the European Food Safety Authority (Regulation 178/2002).

*TUTTOVO is the **only Italian company producing mayonnaise** with two EC identification marks (egg products and milk).*

*These two stamps represent **the highest health and sanitary guarantee** for consumers of Tuttovo's products.*

*To obtain this acknowledgement, the company is therefore subjected to **regular inspections** by the Veterinary Service of ASL TO 3 Rivoli (Torino).*

*There are **more than 20 procedures** that TUTTOVO must strictly follow in order to be deserving of these stamps. The consumer is therefore certain not only of the high hygienic and sanitary quality of Tuttovo products, but also of the **entire supply chain of suppliers of raw materials** (Reg 852/2004).*

*These procedures are also focused on the **skilled workers working in the company: their personal hygiene, their compliance with production procedures, their training, etc.** (Reg. 853/2004).*

And in the event of non-compliance, sanctions are imposed on the company, of a pecuniary nature, but also and above all of a criminal nature!

*Obtaining these stamps is therefore the result of a series of **rigorous examinations and analyses** (sampling on finished products, raw materials, packaging, etc.), and Tuttovo can claim to really care about the health of consumers of its products. (Reg. 854/2004).*

*Innovation and the highest product quality of products, but also a strong attention to the **well-being and safety of the consumer** are the objectives that have inspired the TUTTOVO for more than 30 years.*
